About Best Value Index

The trivago Best Value Index ranks cities based on a combination of consumer ratings and average hotel prices with 100% being the top score. It provides a unique overview of the best valued destinations by using a specifically tailored algorithm that combines the trivago Hotel Price Index with trivago's Reputation Ranking for hotels. Only destinations with at least 30 hotels and a minimum average of 150 user ratings per hotel were considered in this index.
